

FOUNDATION
HUBI & VINCIANE

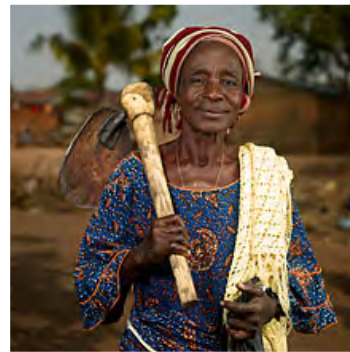

Realising a dream with Benin

A leg-up for Benin

The **sportive fundraising challenge** of
The Hubi & Vinciane Foundation will go virtual this year.
The proceeds will go to its project
'Clean water for the school' in Benin.

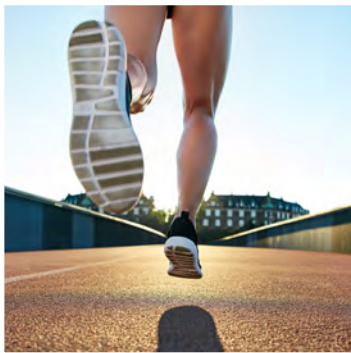

Since 1982, the Hubi & Vinciane Foundation is committed to improve living conditions in the Borgou region of Benin, West Africa.

It provides active support and guidance in health care, education, nutrition, and micro-entrepreneurship in agriculture.

THE CHALLENGE

As a participant you walk, run or cycle in your own region (or elsewhere) between December 5 and 27, 2020, and collect kilometers on a joint virtual journey from Leuven to Parakou (and yes, preferably also back). While registering for the sport challenge, please consider a financial contribution to the project 'Clean water for the school'.

HOW TO PARTICIPATE

Register via our website at www.hubi-vinciane.be/a-leg-up-for-benin or scan this QR code

As soon as you have registered, you will receive your participation number by email.

SHOW YOURSELF!

Send your 'action photos' with your participation number, possibly in your sponsor's outfit, to the [website](http://www.hubi-vinciane.be) (www.hubi-vinciane.be) and the [Facebook](https://www.facebook.com/hubienvinciane.stichting) page (<https://www.facebook.com/hubienvinciane.stichting>) of our Foundation'.

START ON DECEMBER 5, 2020

We will kick off on December 5 in Leuven. Keep an eye on your social media for a live report.

ON THE WAY

While the challenge is ongoing, you will be able to see on our [website](http://www.hubi-vinciane.be) (www.hubi-vinciane.be) in 'real time' where we are on our virtual journey. We want to go to Parakou ... and back!

ARRIVAL ON DECEMBER 27, 2020

Hopefully, we will be back in Leuven on December 27. Follow our live report! And then what?

AND THEN?

And then we start with the construction of the wells and the toilet blocks, the installation of the tippy taps and the awareness-raising campaigns in the schools. Follow us on our site and social media.

A leg-up for Benin

2020

The project: clean water for the school!

Health and hygiene also begin in Benin - which today, like the rest of the world, is dealing with Covid-19 - with clean water. The Foundation has therefore given top priority to providing 50 schools in the Borgou region (central Benin) with basic services for hygiene and potable water. We already installed wells for some thirty schools in recent years. They were drilled by local contractors.

Now we want to tackle the remaining schools.

A well must be 85 meters deep on average, and costs around 7000 euros. That depth guarantees not only the quality of the water, but also an adequate permanent supply of water. We also want to build toilet blocks. And 'tippy taps', simple installations made of recycled material with which pupils can regularly wash their hands.

In short, basic infrastructure that can save the lives of school children and their fellow villagers.

If we succeed, we will improve hygiene and drinking water supplies for more than 6,500 pupils and teachers and for a population of around 45,000 people. For the next phase of that project, the Foundation will need about €60,000 in funding.

Choose what you want to contribute:

| | |
|---|-----------------|
| Hand washing system "tippy tap" | 20 euro |
| Awareness-raising campaign in a school | 50 euro |
| Contribution to a toilet block (cost €1000) | 100 euro |
| Contribution to a well (cost €7000) | 250 euro |

Make your contribution or have it made by a sponsor. From 40 euros on, you will receive a tax certificate, that this year, exceptionally, provides a tax advantage of 60%.

You can always make a donation to account:
